The January General Meeting will be on **Sunday, January 25th.** Please see the announcement on page 4 for details.

Hello Fellow members-

Happy New Year and welcome to 2026. I will skip the formalities regarding new years resolutions that will have fizzled out by the time you read this. Old habits die hard. A wise man once told me that change only happens

when the pain of change is less than the pain of staying the same.

Think about that for second.

For those of you that are new to the club, please allow me to introduce myself. My wife Rosemary and I have been married 25 years and live in Hobe Sound. As best as I can remember, I've been involved with the club in various capacities since 2009 or earlier and served as president in 2012 and 2022. Using that data as a prediction, it seems like I would not be back as president till 2032?

My choice of cars are Pontiacs from the '60s and while I do own the typical big V8 muscle car type-GTO, I've recently broadened my horizons with a 1962 Tempest convertible with the 4 cylinder and cable drive to the rear mounted transmission (think Corvair) and a 1998 Trans-Am convertible with the brand X LT1 Chevy 350, and most recently another Pontiac oddity- a 1967 Lemans convertible with the Overhead Cam6. In this case it's the high performance 6 with a 4 barrel carb producing a whopping 215 horsepower. I had a Lemans 4 door back in the 90s that I commuted with 35 miles one way on I95. It had a weak 165 hp 1 barrel ohc engine.

As a club you have elected a strong and diverse board who will each choose a month to plan a monthly meeting. Despite having done many different things in the area, it never ceases to amaze me when someone comes up with something completely new. In case you have some ideas, please send them to me as we are always incorporating what the members want.

Apart from our regularly scheduled general meetings, we will randomly do other antique car related things. Often these come up at the last minute and the information is not in the monthly newsletter, but sent via mass email. These include random car shows, cruises etc. We recently did our typical New Years cruise which featured 14 classics and 5 newer cars. It was our 7th or eighth one.

As I looked through last year's roster, I realized that there are many names that I cannot put a face to. I hope that changes this year and you make it to few meetings instead of letting the rest of us hog all the fun for our-

selves. *Andre*

General Meeting Notice

TCVCC January General Meeting

Our January meeting will take us to the newly constructed Project Lift site in Hobe Sound

Date: Sunday January 25, 2026 time 9:45am

Address: 12050 SE Lantana Ave. Hobe Sound, FL 33455

This is just off Bridge Road west of US Highway 1.

We will meet there and be given a tour starting at 10:00 am of approximately 1 hour by Vic Miller.

I'd suggest bringing your car show chair if you don't like standing as they do not have a class room like the facility in Palm City.

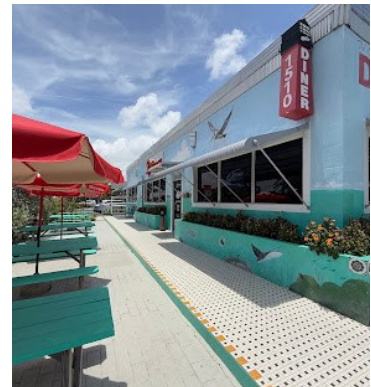

Project LIFT uses an innovative delivery of mental health services and provides therapy through the unique platform of vocational training.

Programming is offered at no cost for young men and women ages 14-24 at their Palm City, Fort Pierce and Belle Glade locations. Transportation is provided for anyone in Martin, St. Lucie, or Western Palm Beach County.

Participants receive hands-on vocational training in a variety of trades while licensed therapists work with them to address issues including depression, anxiety, addiction, trauma, abuse and anger management.

After that we will cruise down to Tequesta to enjoy lunch at the Lighthouse restaurant where we have the back room reserved for us.

If you drive a classic car, there will be an opportunity to win a prize during the lunch at the restaurant.

RSVP to Andre at arayman@aol.com or text 561-818-6212

Member Stories

Do you remember Fisher Body Company or its namesake Craftsman's Guild?

Anyone who has owned a GM car (except Corvettes) will recognize the distinctive “Body by Fisher” emblem on the door sill plates.

*From Mike Mucci, TCVCC member
Cedar Mountain, NC*

A familiar door-sill emblem for anyone who owned a GM car back in the 1930s, '40s, '50s '60s '70s or early 1980s.

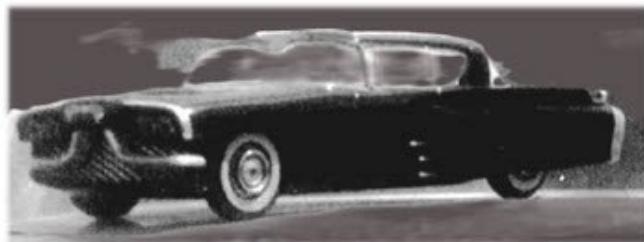

Fisher Body Co. was established in the late 1800s building horse-drawn carriages and later went on to build automobile bodies, primarily for General Motors. GM fully acquired Fisher in 1926 and proudly displayed the Fisher carriage logo on their cars into the mid eighties, when Fisher was no longer a separate division.

However, back in 1930, the Fisher Body division formed the Fisher Body Craftsman's Guild to encourage youthful aspirants to design and build scale model carriages. Then in 1937, the competition switched to 1/12 scale model cars, garnering thousands of entries from across the country.

Having been one of those kids who spent spare time in homeroom and elsewhere drawing cars and dreaming of one day designing them, I naturally was drawn to the competition brought to my attention by my 11th grade algebra teacher, Mr. Yost, who worked for GM before retiring to teaching.

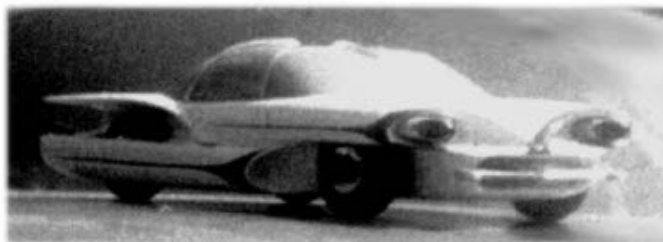

That brings us to 1958, when I entered the competition with a rather pedestrian looking hard-top coupe pictured here, followed by a far-out looking futuremobile in the adjacent photo.

In 1960, I went sporty with clean, minimalist styling featured above, which won for me a state award (in Florida) and a small sum of cash.

But by this time it occurred to me that car designers had to live in Detroit or some other place in the God-forsaken north. That was not for me. So I enrolled at the University of Florida, where I found my way into in the school of advertising and marketing as my career with some elements of architecture and graphic design along the way.

If you or anyone you know participated in the Guild, please get in touch with me at: mm@cedarmountainlodge.com. It would be fun to share experiences. —Mike
